

## Use of NETS by State

### National Educational Technology Standards (NETS) and the States

The *NETS for Students* were released in 1998. The *NETS for Teachers* in June 2000, and the *NETS for Administrators (TSSA)* in November 2001. At the state level, 48 of the 50 states have adopted, adapted, aligned with, or otherwise referenced at least one set of standards in their state technology plans, certification, licensure, curriculum plans, assessment plans, or other official state documents. States that have adopted, adapted, aligned with, or referenced the NETS in state department of education documents are listed below. *Updated June 17, 2003*
