

Last Chance to Vote

The online election for the 2007–08 ISTE board closes on April 13, 2007. ISTE President Kurt Steinhaus encourages ISTE members to vote saying, “Every ballot counts as we work together to improve opportunities and outcomes for all students.” Learn more about this year’s ISTE Board candidates at <http://www.iste.org/elections/>. The following candidates are running for two-year terms beginning June 2007 representing ISTE member constituencies as listed:

Upcoming Webinars

Technology in Practice, or TIP, ISTE’s new webinar series features seven highly engaging professional development webinars in 2007. ISTE author, Bard Williams, serves as the host for the series, which highlights practical tools and strategies to help educators improve the educational experience and capture value from new and existing technology investments. Upcoming webinars include:

- April 17—Multiple Intelligences: The iQuest, Beyond the Connected Classroom, presented by Walter McKenzie
- May 15—Maximizing Interactive Video Communications: Methods for Motivating Teachers and Captivating Learners, presented by Kecia Ray and Jan Zanetis

Each session is 60 minutes, including time for questions and answers and audience polls. Webinar participants receive a companion book on the topic related to the webinar. Learn more about ISTE’s TIP webinar series at <http://www.iste.org/webinars/>.

ISTE Board Approves New SIG

At its February 2007 meeting, ISTE’s Board of Directors approved a proposal to create a new Special Interest Group for 1-to-1 computing issues. SIG1to1 will work to advance the thoughtful proliferation of 1-to-1 mobile computing devices for every student in K–16 education.

Stay tuned in the coming months for more details about joining as we introduce this new member of our SIG family. For more information on the SIG program in general, visit <http://www.iste.org/sigs>. In the meantime, if you’d like to switch or update one of your existing SIGs or add a new SIG, contact ISTE Member Services at 1.800.336.5191.
